INTRODUCTION

This report presents a statistical profile for one of Alberta's **Provincial Electoral Divisions (PED)** supplemented by a comparative summary table for all PEDs. A PED is a territorial unit entitled to return a Member to serve in the Alberta Provincial Legislative Assembly. Based on the 1996 boundaries, there are currently 83 PEDs in the Province of Alberta.

All data in this report have been tabulated from information collected by Statistics Canada during the 1991 Census of Canada. The information featured was gathered from a 20% sample of households, and includes characteristics such as home language, ethnic origin, place of birth, education, religion, labour force activity, housing costs, and income. For the purpose of this report, the assignment of population is based on the geographic allocation of Statistics Canada enumeration areas to PEDs.

For information on the basic demographic characteristics of PEDs, please refer to the **2A PED profile series** covering all households (100% sample data) which was produced in April of 1993. Characteristics covered include population, marital status, families, households, dwellings and mother tongue.

On some Indian reserves and Indian settlements in the 1991 Census, enumeration was not permitted or was interrupted before it could be completed. Data are therefore not available for the incompletely enumerated reserves and settlements, and are not included in the profiles. Four PEDs are affected: Bonnyville, Lac La Biche-St. Paul, Lesser Slave Lake and Ponoka-Rimbey. Users are advised to refer to the appendices for further information regarding data quality, definitions and the electoral map.

(46) Calculations based on unrounded data.

Population

Total population (100% data)	35,666
Total population (non-institutional) [1]	35,665

Home Language

		% of Total Population
Single responses	35,350	99.1
English	33,865	95.0
French	90	0.3
Non-official languages	1,390	3.9
Chinese	385	1.1
German	65	0.2
Vietnamese	40	0.1
Polish	140	0.4
Spanish	145	0.4
Other languages	605	1.7
Multiple responses	315	0.9

Knowledge of Official Languages

		% of Total Population
English only	32,815	92.0
French only	10	0.0
Both English and French	2,720	7.6
Neither English nor French	125	0.4

Knowledge of Non-official Languages [2]

		% of Total Population
German	960	2.7
Chinese	675	1.9
Ukrainian	295	0.8
Spanish	445	1.2
Dutch	250	0.7
Polish	270	0.8
Italian	215	0.6

(1) With the exception of "Total Population (100% data)", all characteristics exclude institutional residents and are based on weighted sample data (20%). In some instances, due to weighting factors, it is possible for small areas to have a "Total population (non-institutional)" higher than the "Total Population (100% data)".

(2) Indicates the number of respondents reporting knowledge of these non-official languages.

Religion

		% of Total Population
Catholic	9,605	26.9
Protestant	18,160	50.9
Other religions [3]	1,420	4.0
No religious affiliation	6,480	18.2

Ethnic Origin

		% of Total Population
Single origins	17,845	50.0
British origins [4]	7,920	22.2
German	1,795	5.0
Ukrainian	760	2.1
Canadian	1,595	4.5
French origins [5]	675	1.9
Chinese	735	2.1
Aboriginal origins [6]	140	0.4
Other single origins	875	2.5
Multiple origins [8]	17,820	50.0

Citizenship

		% of Total Population
Canadian citizenship [9]	33,910	95.1
Citizenship other than Canadian	1,755	4.9

(3) "Other religions" include Eastern Orthodox, Jewish, Eastern non-Christian, para-religious groups and other, n.e.c.

(4) Includes the single responses of English, Irish, Scottish, Welsh, and Other British, n.i.e.

(5) Includes the single responses of French, Acadian and Québécois.

(6) Includes the single responses of Inuit, Métis, and North American Indian.

(8) A multiple response occurs when a respondent provides two or more ethnic origins.

(9) Includes Canadian citizenship by birth and Canadian citizenship by naturalization.

n.e.c. = not elsewhere classified

n.i.e. = not included elsewhere

Place of Birth

		% of Total Population
Non-immigrant population [10]	29,770	83.5
Born in Alberta	16,195	45.4
Immigrant population	5,750	16.1
United States of America	420	1.2
Central and South America	240	0.7
Caribbean and Bermuda	115	0.3
United Kingdom	1,850	5.2
Other Europe [11]	1,510	4.2
Africa	345	1.0
India	200	0.6
Other Asia [12]	1,040	2.9
Oceania & Other [13]	25	0.1
Non-permanent residents [14]	145	0.4

Total Immigrant Population by Period of Immigration

		% of Total Population
Total immigrant population	5,750	16.1
		% of Immigrant Population
By period of immigration:		
Before 1961	1,150	20.0
1961 - 1970	1,000	17.4
1971 - 1980	2,125	37.0
1981 - 1991 [15]	1,480	25.7
1981 - 1987	995	17.3
1988 - 1991 [15]	485	8.4

Age at Immigration

		% of Immigrant Population
0 - 4 years	695	12.1
5 - 19 years	1,630	28.3
20 years and over	3,430	59.7

(10) Includes persons born outside the province of residence as well as persons born outside Canada who have Canadian citizenship by birth and, therefore, will not have immigrated to Canada.

(11) Excludes the United Kingdom.

(12) "Other Asia" includes the Middle East and excludes India.

(13) "Other" includes persons born in Canada who do not have Canadian citizenship by birth, but who do have a valid year of immigration.

(14) Refers to persons who hold a student authorization, employment authorization or Minister's permit, or who are refugee claimants.

(15) Includes the first five months only of 1991.

Mobility Status

Total population 1 year and over[16]	35,185	
		% of Total Population 1 Year and Over
By place of residence 1 year ago:		
Non-movers	29,075	82.6
Movers	6,105	17.4
Intraprovincial movers	5,000	14.2
Interprovincial migrants	885	2.5
External migrants	220	0.6
Total population 5 years and over [16]	32,825	
		% of Total Population 5 Years and Over
By place of residence 5 years ago:		
Non-movers	15,905	48.5
Movers	16,920	51.5
Non-migrants	10,560	32.2
Migrants	6,365	19.4
Internal migrants	5,270	16.1
Intraprovincial migrants	2,345	7.1
Interprovincial migrants	2,920	8.9
External migrants	1,095	3.3

Women 15 Years and Over by Children Ever Born

		Birth Rate
Ever-married women 15 years and over	10,085	
Children ever-born per 1000 women	2,104	2.10
Ever-married women 15 - 44 years	6,485	
Children ever-born per 1000 women	1,835	1.84
Single women 15 years and over	2,920	
Children ever-born per 1000 women	63	0.06

(16) Population residing in Canada, excluding all persons in collective households and Canadians (military and government personnel) in households outside Canada.

School Attendance

Total population 15 - 24 years	5,525	
		% of Total Population 15 - 24 years
By school attendance:		
Not attending school	1,650	29.9
Attending school full time	3,455	62.5
Attending school part time	415	7.5

Highest Level of Schooling

Total population 15 years and over	25,960	
		% of Total Population 15+ Years
By highest level of schooling:		
Less than grade 9 (17)	725	2.8
Grades 9 - 13:		
Without secondary certificate	5,520	21.3
With secondary certificate	3,645	14.0
Trades certificate or diploma	725	2.8
Other non-university: (18)		
Without certificate	1,745	6.7
With certificate (18) (19)	4,490	17.3
University - Without degree	3,815	14.7
University - Without certificate	2,140	8.2
University - With certificate (19)	1,675	6.5
University - With degree	5,295	20.4

(17) Includes "Never attended school or attended kindergarten only".

(18) Refers to courses completed at post-secondary non-university institutions which normally require a secondary school graduation certificate or equivalent for entrance, AS WELL AS to other courses in related or like institutions (such as private trade schools or adult vocational centres) which may NOT require secondary school graduation for entrance.

(19) Includes "Other non-university certificate or diploma" and "Trades certificate or diploma".

Labour Force Activity

Males - 15 years and over	12,955
In labour force	11,370
Employed	10,820
Unemployed	550
Not in the labour force	1,580
Unemployment rate %	4.8
Participation rate %	87.8
Females - 15 years and over	13,010
In labour force	9,280
Employed	8,660
Unemployed	615
Not in the labour force	3,730
Unemployment rate %	6.6
Participation rate %	71.3
With no children at home [20]	68.6
With children at home [20]	73.5
Under 6 years only [20]	68.1
Some less than 6 years [20] [21]	56.5
Unemployment rate, both sexes:	
15 - 24 years	12.2
25 years and over	4.1
Participation rate, both sexes:	
15 - 24 years	69.7
25 years and over	82.2

(20) This participation rate is calculated for females 15 years and over in private households only.

(21) Refers to females 15 years and over in private households with children under 6 years of age as well as children 6 years and over.

Labour Force by Industry[23]

Total labour force 15 years and over	20,645	
Not applicable [22]	165	
		% of Experienced Labour Force
All industries [23] [24]	20,490	
Agricultural and related service industries	85	0.41
Fishing and trapping industries	0	0.00
Logging and forestry industries	15	0.07
Mining (incl. milling), quarrying & oil well industry	1,740	8.49
Manufacturing industries	1,685	8.22
Construction industries	1,290	6.30
Transportation and storage industries	895	4.37
Communication and other utility industries	685	3.34
Wholesale trade industries	1,410	6.88
Retail trade industries	2,770	13.52
Finance and insurance industries	1,070	5.22
Real estate operator and insurance agent industry	580	2.83
Business service industries	2,130	10.40
Government service industries	985	4.81
Educational service industries	1,220	5.95
Health and social service industries	1,600	7.81
Accommodation, food and beverage service industry	960	4.69
Other service industries	1,360	6.64

(22) The "Not applicable" category refers to unemployed persons 15 years and over who have never worked or who had worked only prior to January 1, 1990. For these persons, the industry, occupation and class of worker questions did not apply (this category is also referred to as the "Inexperienced labour force").

(23) Occupation major groups and industry division totals include computer assignment of the "Not stated" categories. These assignments are based on selected socio-economic characteristics.

(24) This category is also referred to as the "Experienced labour force".

Male Labour Force by Major Occupation Groups[23]

Total labour force 15 years and over	20,645	
	165	
		% of Experienced Labour Force
Males - All occupations (Major groups) [23] [24]	11,325	55.30

No usual place of work	155	0.80
Females in employed labour force	8,665	44.47
Usual place of work	7,905	40.57
In census subdivision of residence	7,685	39.44
In different census subdivision	220	1.13
In same census division	95	0.49
At home	685	3.52
Outside Canada	30	0.15
No usual place of work	45	0.23

(22) The "Not applicable" category refers to unemployed persons 15 years and over who have never worked or who had worked only prior to January 1, 1990. For these persons, the industry, occupation and class of worker questions did not apply (this category is also referred to as the "Inexperienced labour force").

(24) This category is also referred to as the "Experienced labour force".

Dwelling Characteristics

Total number of occupied private dwellings	10,630
Average number of rooms per dwelling	8.0
Average number of bedrooms per dwelling	3.5
Average value of dwelling $ [35]	157,502

Dwellings by Need of Repair

		% of Total Occupied Private Dwellings
Regular maintenance only	7,250	68.2
Minor repairs	2,955	27.8
Major repairs	415	3.9

Dwellings by Period of Construction

		% of Total Occupied Private Dwellings
Before 1946	10	0.1
1946 - 1960	35	0.3
1961 - 1970	930	8.7
1971 - 1980	7,090	66.7
1981 - 1985	1,915	18.0
1986 - 1991 [36]	640	6.0

(35) Applies to owner-occupied non-farm, non-reserve dwellings only.
(36) Includes the first five months only of 1991.

Household Characteristics

Total number of private households	10,630
Average number of persons per room	0.4
Tenant one-family households:	
Without additional persons [38]	1,215
Average gross rent $ [37]	812
Gross rent:	
>= 30% of household income [38]	360
Owner one-family households:	
Without additional persons [39]	7,425
Average major payments for owners $ [35]	920
Owner's major payments:	
>= 30% of household income [39]	910

(35) Applies to owner-occupied non-farm, non-reserve dwellings only.
(37) Applies to tenant-occupied non-farm, non-reserve dwellings only.
(38) Includes households in tenant-occupied non-farm, non-reserve dwellings with household income greater than $0 in 1990 (i.e. excludes negative or zero household income).
(39) Includes households in owner-occupied non-farm, non-reserve dwellings with household income greater than $0 in 1990 (i.e. excludes negative or zero household income).

Employment Income (1990) by Sex and Work Activity

Males:	
Worked full year, full time [40]	7,815
Average employment income $	53,644
Standard error of average employment income $	791
Worked part year or part time [41]	3,795
Average employment income $	19,561
Standard error of average employment income $	838
Females:	
Worked full year, full time [40]	4,380
Average employment income $	29,560
Standard error of average employment income $	535
Worked part year or part time [41]	5,335
Average employment income $	12,396
Standard error of average employment income $	367
Composition of Total Income: [42]	
Total %	100.0
Employment income %	88.9
Government transfer payments %	3.6
Other income %	7.4

(40) Worked 49 - 52 weeks in 1990, mostly full time.
(41) Worked 49 - 52 weeks in 1990, mostly part time, or worked less than 49 weeks.
(42) Percentages may not add to 100% due to rounding.

Total Income (1990) by Sex

Total Population 15 Years and Over with Income	23,935	
		% of Total Population with Income
Males 15 years and over with income	12,450	52.0
Under $1,000 (43)	455	1.9
$ 1,000 - $ 2,999	470	2.0
$ 3,000 - $ 4,999	325	1.4
$ 5,000 - $ 6,999	355	1.5
$ 7,000 - $ 9,999	445	1.9
$10,000 - $14,999	780	3.3
$15,000 - $19,999	660	2.8
$20,000 - $24,999	640	2.7
$25,000 - $29,999	725	3.0
$30,000 - $39,999	1,610	6.7
$40,000 - $49,999	1,635	6.8
$50,000 and over	4,330	18.1
Average income $ (44)	43,743	
Median income $ (44)	38,276	
Standard error of average income $	680	
Females 15 years and over with income	11,485	48.0
Under $1,000 (43)	670	2.8
$ 1,000 - $ 2,999	915	3.8
$ 3,000 - $ 4,999	615	2.6

$50,000 - $59,999	1,310	12.3
$60,000 - $69,999	1,270	11.9
$70,000 and over	4,805	45.2
Average income $	72,878	
Median income $	65,635	
Standard error of average income $	888	

APPENDIX 1

TECHNICAL NOTES*

Confidentiality and Random Rounding

The figures are subjected to a confidentiality procedure known as "random rounding" to prevent the possibility of associating statistical data with any identifiable individual. Under this method, all figures including totals are randomly rounded either up or down to a multiple of "5", and in some cases "10". This technique provides strong protection against disclosure without adding significant error to the Census data. However, since totals are independently rounded, they do not necessarily equal the sum of individually rounded figures in distributions. Also, minor differences can be expected in corresponding totals and cell values in various census tabulations. Small cell counts may suffer a significant distortion as a result of random rounding. Individual data cells containing these small numbers may lose their precision as a result.

Sampling and Weighting

The 1991 Census data were collected either on a 100% basis (i.e. for all households) or on a sample basis (i.e. from only a random sample of households) with the data weighted to provide estimates of the entire population. **The information in this report was collected on a 20% sample basis and weighted up to compensate for sampling**. Note that, on most Indian reserves and remote areas, all data were collected on a 100% basis.

For any given geographic area, the weighted population, household, dwelling or family total or subtotal may differ from that shown in reports containing data collected on a 100% basis. Such variation (in addition to the effect of random rounding) will be due to sampling.

Population Counts Based on Usual Residence

The population counts for a particular area represent Canadians whose usual place of residence is in that area, regardless of where they happened to be on Census day. Also included are any Canadians staying in a dwelling in that area on Census day and having no usual place of residence elsewhere in Canada, as well as those considered "non-permanent residents". In most areas, there is little difference between the number of usual residents and the number of people staying in the area on Census day. However, for certain places such as tourist or vacation areas or those including large work camps, the number of people staying in the area at any particular time could significantly exceed the number of usual residents.

Incompletely Enumerated Indian Reserves and Settlements

On some Indian reserves and Indian settlements in the 1991 Census, enumeration was not permitted or was interrupted before it could be completed. Data are therefore not available for the incompletely enumerated reserves and settlements and are not included in tabulations. While for higher level geographic areas (Canada, provinces, census metropolitan areas and census agglomerations) the impact of the missing data is very small, it can be significant for smaller areas containing a larger proportion of the affected reserves and settlements.

Non-Permanent Residents

In 1991, for the first time except for 1941, the Census included both permanent and non-permanent residents of Canada. Non-permanent residents are persons who hold student or employment authorizations, Minister's permits or who are refugee claimants. Prior to 1991, only permanent residents of Canada were included in the Census. Non-permanent residents were considered foreign residents and were not enumerated. Total population counts, as well as counts for all variables collected on a 100% basis (e.g., age, sex, marital status and mother tongue) will be affected by the change in the 1991 Census universe.

APPENDIX 2

DEFINITIONS*

Age

Refers to the age at last birthday (as of the census reference date, June 4, 1991).

Age at Immigration

Refers to the age at which the respondent first obtained landed immigrant status. A landed immigrant is a person who is not a Canadian citizen by birth, but who has been granted the right to live in Canada permanently by Canadian immigration authorities.

Bedrooms

Refers to all rooms designed and furnished as bedrooms and used mainly for sleeping purposes, even though the use may be occasional (ie. spare bedroom).

Census Family

Refers to a now-married couple (with or without never-married sons and/or daughters of either or both spouses), a couple living common-law (again with or without never-married sons and/or daughters of either or both partners), or a lone parent of any marital status, with at least one never-married son or daughter living in the same dwelling.

Citizenship

Refers to the legal citizenship status of the respondent. Persons who are citizens of more than one country were instructed to indicate this fact.

Class of Worker

This variable classifies persons who reported a job into those who (i) worked mainly for someone else for wages, salaries, commissions or payments "in kind", (ii) worked without pay in a family farm, business or professional practice owned or operated by a related household member, (iii) worked mainly for themselves, with or without paid help. The job reported was the one held in the week prior to enumeration if the person was employed, or the job of longest duration since January 1, 1990, if the person was not employed during the reference week. Persons with two or more jobs in the reference week were to provide information for the job at which they worked the most hours.

Condition of Dwelling

Refers to whether, in judgement of the respondent, the dwelling requires any repairs (excluding desirable remodelling or additions). **Regular maintenance** refers to painting, furnace cleaning, etc. **Minor repairs** refer to missing or loose floor tiles, bricks or shingles, defective steps, railings or siding, etc. **Major repairs** refer to defective plumbing or electrical wiring, structural repairs to walls, floors or ceilings, etc.

Economic Family

Refers to a group of two or more persons who live in the same dwelling and are related to each other by blood, marriage, common-law or adoption.

Employed

Refers to persons who, during the week prior to June 4, 1991:

(a) did any work at all excluding housework or other maintenance or repairs around the home and volunteer work; or

(b) were absent from their job or business because of own temporary illness or disability, vacation, labour dispute at their place of work, or were absent for other reasons.

Data are available for persons 15 years of age and over, excluding institutional residents.

---

[1] Statistics Canada ***Data Documentation for the Profile Series - Part B.*** Ottawa: Supply and Services Canada 1993. 1991 Census of Canada

Enumeration Area (EA)

An enumeration area (EA) is the geographic area canvassed by one census representative.

Ethnic Origin

Refers to the ethnic or cultural group(s) to which the respondent's ancestors belong. Ethnic or cultural origin refers to the ethnic "roots" or ancestral background of the population, and should not be confused with citizenship or nationality.

Experienced Labour Force

Refers to persons who, during the week prior to June 4, 1991, were employed or unemployed but who had worked since January 1, 1990. The experienced labour force can be derived by deleting from the total labour force those unemployed persons 15 years of age and over who have never worked or who worked only prior to January 1, 1990.

Federal Electoral District (FED)

A federal electoral district refers to any place or territorial area entitled to return a member to serve in the House of Commons. There are 26 FEDs in Alberta according to the 1987 Representation Order.

Fertility

Refers to the number of children ever born alive to women aged 15 years and over.

Full-time or Part-time Weeks Worked in 1990

Refers to persons who worked in 1990. These persons were asked to report whether the weeks they worked in 1990 were full weeks (30 hours or more per week) of work or not. Persons with a part-time job for part of the year and a full-time job for another part of the year were to report the information for the job at which they worked the most weeks. Data are available for persons 15 years of age and over who worked in 1990, excluding institutional residents.

Gross Rent

Refers to the total average monthly payments paid by tenant households to secure shelter.

Highest Level of Schooling

Refers to the highest grade or year of elementary or secondary school attended, or the highest year of university or other non-university completed. University education is considered to be above other non-university. Also, the attainment of a degree, certificate or diploma is considered to be at a higher level than years completed or attended without an educational certificate.

Home Language

Refers to the language spoken most often at home by the individual at the time of the census.

Immigrant Population

Refers to persons who are, or have been, landed immigrants in Canada. A landed immigrant is a person who is not a Canadian citizen by birth, but who has been granted the right to live in Canada permanently by Canadian immigration authorities.

Income: Average, Median and Standard Error

Average Income

Average income refers to the weighted mean total income of a group of income units (individuals, families or households) and is calculated from unrounded data by dividing the aggregate income of the group (eg. males, 45-54 years of age, female lone-parent families, one-person households) by the number of units in that group. In the case of individuals, average income is calculated only for individuals with income (positive or negative). In all other cases, both with and without income units are included in the calculation.

Median Income

The median income of a specified group of income units is that amount which divides their income size distribution into two halves, i.e. the incomes of the first half of the income units are below the median, while those of the second half are above the median. In the case of individuals, median income is calculated only for individuals with income (positive or negative). In all other cases, both with and without income units are included in the calculation.

Standard Error of Average Income

Refers to the estimated error of standard income. It is an estimate of the error introduced into these data due to the fact that they are collected only from a one in five random sample of households. When using these figures, the user can be reasonably certain that the true value of the average income (i.e. the value that would have been obtained had sampling not been used) lies within plus or minus twice the standard error and virtually certain that it lies within plus or minus three times the standard error. These estimates of standard error do not include the effects of certain types of response error or systematic or coverage errors.

Income: Census Family Total Income

The total income of a census family is the sum of the total incomes of all members of that family. Similarly, the income of a family from a particular source or sources is the sum of incomes of all family members from that source or sources.

Income: Household Income

The composition of the total income of a population group or a geographic area refers to the relative share of each income source or group of sources, expressed as a percentage of the aggregate income of that group or area.

For the profile series three groups of sources are used; employment income, which includes wages and salaries and income from farm and non-farm self employment; government transfer payments which includes all transfers or payments received from any level of government and covered as a separate income source; other income which includes investment income, retirement pensions and other money income.

Income: Employment Income

Refers to total income received by persons 15 years of age and over during 1990 as wages and salaries, net income from unincorporated non-farm business and/or professional practice and net farm self-employment income.

Income: Household Income

The total income of a household is the sum of the total incomes of all members of that household.

Income: Incidence of Low Income

The incidence of low income is the proportion or percentage of economic families or unattached individuals in a given classification below the low income cut-offs. These incidence rates are calculated from unrounded estimates of economic families and unattached individuals 15 years of age and over. Since all members of an economic family share a common status, incidence of low income is also calculated for the population in private households.

Income: Income Status

Refers to the position of an economic family or an unattached individual 15 years of age and over in relation to Statistics Canada's low income cut-offs (LICOs).

Income: Low Income Cut-offs (LICOs)

Measures of low income known as low income cut-offs (LICOs) were first introduced in Canada in 1968 based on 1961 Census income data and 1959 family expenditure patterns. At that time, expenditure patterns indicated that Canadian families spent about 50% of their income on food, shelter and clothing. It was arbitrarily estimated that families spending 70% or more of their income on these basic necessities would be in "straitened" circumstances. With this assumption, low income cut-off points were set for five different sizes of families.

Subsequent to these initial cut-offs, revised low income cut-offs were established based on national family expenditure data from 1969, 1978 and 1986. These data indicated that Canadian families spent, on average, 42% in 1969, 38.5% in 1978 and 36.2% in 1986 of their income on basic necessities. By adding the original difference of 20 percentage points to the basic level of expenditure on necessities, new low income cut-offs were set at income levels differentiated by family size and degree of urbanization. Since then, these cut-offs have been updated yearly by changes in the consumer price index.

For the purposes of low income statistics, economic families and unattached individuals on Indian reserves are excluded. The low income cut-offs were based on certain expenditure-income patterns which were not available from survey data for the entire population.

Low Income Cut-offs for Economic Families and Unattached Individuals, 1990

Family	Size of area of residence				
	500,000 or more	100,000 to 499,999	30,000 to 99,999	Small Urban Areas	Rural Areas (farm and non-farm)
1	14,155	12,433	12,146	11,072	9,637
2	19,187	16,854	16,464	15,008	13,064
3	24,389	21,421	20,926	19,076	16,605
4	28,081	24,662	24,094	21,964	19,117
5	30,680	26,946	26,324	23,997	20,887
6	33,303	29,248	28,573	26,047	22,672
7 or more	35,818	31,460	30,734	28,017	24,385

Income: Total Income

Refers to the total money income received from the following sources during the calender year 1990 by persons 15 years of age and over:

- Total wages and salaries
- Net income from unincorporated non-farm business and/or professional practice
- Net farm self-employment income
- Family Allowances
- Federal Child Tax Credits
- Old Age Security pension and Guaranteed Income Supplement
- Benefits from Canada or Quebec Pension Plan
- Benefits from Unemployment Insurance
- Other income from government sources
- Dividends and interest on bonds, deposits, savings certificates and other investment income
- Retirement pensions, superannuation and annuities
- Other money income

Industry (Based on 1980 Standard Industrial Classification)

Refers to the general nature of the business carried out in the establishment where the person worked, as indicated by the name of the employer and the kind of business, industry or service. Data are available for persons 15 years of age and over, excluding institutional residents.

If the person was not employed in the week prior to enumeration, the information relates to the job of longest duration since January 1, 1990. Persons with two or more jobs were to report the information for the job at which they worked the most hours.

Census industry data based on the 1980 Standard Industrial Classification (SIC) have three levels of aggregation. There are 18 divisions (labelled A to R) which are subdivided into 75 major groups, which are, in turn, subdivided into 296 unit groups.

Inexperienced Labour Force

The inexperienced labour force consists of unemployed persons 15 years of age and over who have never worked or who worked only prior to January 1, 1990.

Institutional Resident

Refers to a resident of an "institutional" collective dwelling, other than staff members and their families. "Institutional" collective dwellings are children's group homes and orphanages, nursing homes, chronic care hospitals, residences for senior citizens, hospitals, psychiatric institutions, treatment centres and institutions for the physically handicapped, correctional and penal institutions, young offender's facilities and jails.

Knowlege of Non-official Languages

Refers to the language or languages, other than English or French, in which the respondent can conduct a conversation. The non-official language data are based on the respondent assessment of his or her ability to speak non-official languages.

Knowlege of Official Languages

Refers to the ability to conduct a conversation in English only, in French only, in both English and French or in none of the official languages of Canada. The non-official language data are based on the respondent assessment of his or her ability to speak the two official languages.

Labour Force Activity

Refers to the labour market activity of the working age population who, in the week prior to June 4, 1991, were **employed** or **unemployed**. The remainder of the working age population is classified as **not in labour force**. Data are available for persons 15 years of age and over, excluding institutional residents.

Landed Immigrant Status

Refers to persons who are not Canadian citizens by birth, but who have been granted the right to live in Canada permanently by Canadian immigration authorities.

Marital Status (Legal)

Refers to the conjugal status of a person.

Legally Married (and not separated) - Persons whose husband or wife is living, unless the couple is separated or a divorce has been obtained.

Divorced - Persons who have obtained a legal divorce and who have not remarried.

Widowed - Persons who have lost their spouse through death and who have not remarried.

Never Married (single) - Persons who have never married (including all persons less than 15 years of age) and persons whose marriage has been annulled and who have not remarried.

Mobility Status - Place of Residence 1 Year Ago

Refers to the relationship between a person's usual place of residence on Census Day and his or her usual place of residence one year earlier. A person is classified as a **non-mover** if no difference exists; otherwise, a person is classified as a **mover** and this categorization is called Mobility Status (1 Year Ago). Within the category **movers**, a further distinction is made between **intraprovincial movers**, **interprovincial migrants** and **external migrants**.

Non-movers are persons who, on Census Day, were living at the same address which they occupied one year earlier.

Movers are persons who, on Census Day, were living at a different address than the one at which they resided one year earlier.

Intraprovincial movers are movers who, on Census Day, were living at a different address but in the same province/territory that they occupied one year earlier.

Interprovincial migrants are movers who, on Census Day, were living in a different province/territory one year earlier.

External migrants are movers who, on Census Day, were living outside Canada one year earlier.

Mobility Status - Place of Residence 5 Years Ago

Refers to the relationship between a person's usual place of residence on Census Day and his or her usual place of residence five years earlier. A person is classified as a **non-mover** if no difference exists; otherwise, a person is classified as a **mover** and this categorization is called Mobility Status (5 Years Ago). Within the category **movers**, a further distinction is made between **non-migrants** and **migrants**; this difference is called the migration status.

Non-movers are persons who, on Census Day, were living at the same address which they occupied five years earlier.

Movers are persons who, on Census Day, were living at a different address than the one at which they resided five years earlier.

Non-migrants are movers who, on Census Day, were living at a different address but in the same census subdivision (CSD) that they occupied five years earlier.

Migrants are movers who, on Census Day, were residing in a different CSD five years earlier (**internal migrants**) or who were living outside Canada five years earlier (**external migrants**). **Internal migrants** are further divided into two categories: **intraprovincial migrants**, who moved to a different CSD within the same province, and **intraprovincial migrants**, who moved to another province.

External migrants are movers who, on Census Day, were living outside Canada five years earlier.

Non-Immigrant Population

Refers to persons who are Canadian citizens by birth.

Non-Permanent Residents

Refers to persons who hold a student authorization, employment authorization, Minister's permit or who are refuge claimants.

Not in the Labour Force

Refers to those persons who, in the week prior to enumeration, were unwilling or unable to offer or supply their labour services under conditions existing in the labour market. It includes persons who looked for work during the last four weeks but who were not available to start work in the reference week, as well as persons who did not work, did not have a new job to start in four weeks or less, were not on temporary lay-off or did not look for work in the four weeks prior to enumeration. Data are available for persons 15 years of age and over, excluding institutional residents.

Occupation (Based on 1980 Standard Occupational Classification)

Refers to the kind of work persons were doing during the reference week, as determined by their kind of work and the description of the most important duties in their job. Data are available for persons 15 years of age and over, excluding institutional residents. If the person did not have a job during the week prior to enumeration, the data relate to the job of longest duration since January 1, 1990. Persons with two or more jobs were to report the information for the job at which they worked the most hours.

Occupation data are based on the 1980 classification structure which is composed of three levels of aggregation. There are 22 major groups which are subdivided into 80 minor groups. These, in turn, contain a total of 514 unit groups.

Occupied Private Dwelling

Refers to a private dwelling in which a person or group of persons are permanently residing. Also included are private dwellings whose usual residents are temporarily absent on Census Day. These data, however, exclude private dwellings occupied solely by foreign and/or temporary residents.

Owner's Major Payments

Refers to the total average monthly payments made by owner households to secure shelter.

Owner's Major Payments or Gross Rent as a Percentage of Household Income

Refers to the proportion of average monthly 1990 total household income which is spent on owner's major payments (in the case of owner-occupied dwellings) or on gross rent (in the case of tenant-occupied dwellings).

Participation Rate

Refers to the total labour force (in reference week) expressed as a percentage of the population 15 years of age and over, excluding institutional residents. The participation rate for a particular group (age, sex, marital status, geographic area, etc.) is the labour force in that group expressed as a percentage of the population for that group.

Period of Construction

Refers to the period in time during which the building or dwelling was originally constructed.

Period of Immigration

Refers to groupings of years derived from the year of immigration question.

Place of Birth

Refers to specific provinces or territories if born in Canada, or to specific countries if born outside Canada.

Place of Work

Refers to the usual place of work of non-institutional residents 15 years of age and over who have worked since January 1, 1990. The variables usually relate to the individual's job in the week prior to enumeration. However, if the person had not worked in that week but had worked since January 1, 1990, the information relates to the job held longest during that period.

Respondents were to check the "Worked at home", "Worked outside Canada" or "Worked at address specified below" box. Explanations follow.

Worked at home - Includes those persons whose location of employment is in the same building as their place of residence and those persons living and working on the same farm.

Worked outside Canada - Includes diplomats, Armed Forces personnel and others enumerated abroad, recent immigrants not currently employed whose job of longest duration since January 1, 1990 was outside Canada, and other persons who indicated that they worked outside Canada.

Worked at the address specified below - This response was to be checked off by persons whose place of work did not fall in either the "Worked at home" or "Worked outside Canada" categories. In addition, the full address of the place of work was to be reported. If the full address was not known, the name of the building or street intersection could be substituted. Persons who did not work in one area but who reported regularly to a headquarters were to give the address of the local headquarters or depot. Persons with no fixed or usual place of work were asked to write in "No usual place".

Presence of Children

The Presence of Children variable classifies females 15 years and over in private households into those with children at home and those with no children at home. Females with children at home are then classified on the basis of the age groups of their children. The term "children" refers to all blood, step-, or adopted sons and daughters, who have never married, regardless of age, in census families (in private households), who are living in the same dwelling as their parent(s). Sons and daughters who are currently or were previously married, or who are living common-law, are not considered to be members of their parent(s)' census family, even if they are living in the same dwelling.

Private Dwelling

Refers to a separate set of living quarters with a private entrance either from outside or from a common hall, lobby, vestibule or stairway inside the building. The entrance to the dwelling must be one which can be used without passing through the living quarters of someone else. The dwelling must meet the three conditions necessary for year-round use:

(1) a source of heat or power (as evidenced by chimneys, powerlines, oil or gas pipes or meters, generators, woodpiles, electric lights, solar heating panels, etc.);
(2) access to a source of drinking water throughout the year (as evidenced by faucets, drain pipes, wells, water pumps, etc.);
(3) an enclosed space that provides shelter from the elements (as evidenced by complete and enclosed walls, by a roof, and by doors and windows that provide protection from wind, rain, and snow).

Private Household

Refers to a person or a group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada.

Religion

Refers to specific religious denominations, groups or bodies as well as sects, cults, or other religiously defined communities or systems of belief.

Rooms

Refers to the number of rooms in a dwelling. A room is an enclosed area within a dwelling which is finished and suitable for year-round living.

School Attendance

Refers to either full-time or part-time (day or evening) attendance at school, college or university during the nine-month period between September 1990 and June 4, 1991. Attendance is counted for courses which could be used as credits towards a certificate, diploma or degree.

Sex

Refers to the gender of the respondent.

Tenure

Refers to whether some member of the household owns or rents the dwelling, or whether the dwelling is band housing (on an Indian reserve or settlement).

A dwelling is classified as "owned" even if it is not fully paid for, such as one which has a mortgage or some other claim on it. The dwelling may be situated on rented or leased land or be part of a condominium (whether registered or unregistered).

A dwelling is classified as "rented" even if it is provided without cash rent or at a reduced rent or if the dwelling is part of a co-operative. For census purposes, in a co-operative all members jointly own the co-operative and occupy their dwelling units under a lease agreement.

For historical and statutory reasons, shelter occupancy on reserves does not lend itself to the usual classification by standard tenure categories. Therefore, a special category, **band housing**, has been created for 1991 Census products.

Total Labour Force

Refers to persons who were either employed or unemployed during the week prior to enumeration (June 4, 1991). Data are available for persons 15 years of age and over, excluding institutional residents.

Unemployed

Refers to persons who, during the week prior to enumeration (June 4, 1991):

(1) were without work, actively looked for work in the past four weeks and were available for work; or
(2) were on lay-off and expected to return to their job and were available for work; or
(3) had definite arrangements to start a new job in four weeks or less and were available for work.

Data are available for persons 15 years of age and over, excluding institutional residents.

Unemployment Rate

Refers to the unemployed labour force expressed as a percentage of the total labour force (in reference week). The unemployment rate for a particular group (age, sex, marital status, geographic area, etc.) is the number of unemployed in that group expressed as a percentage of the labour force for the group. Data are available for persons 15 years of age and over, excluding institutional residents.

Value of Dwelling

Refers to the dollar amount expected by the owner if the dwelling were to be sold.

Work Activity in 1990

Refers to the number of weeks in which a person worked in 1990 and whether these weeks worked were full-time or part-time. Individuals who worked 49 to 52 weeks, mostly full-time, are classified as full-year, full-time workers.
